Message from the Editor-in-Chief

We invite you to read a selection of recent articles published in *Children* (ISSN 2227-9067) and to consider publishing your next paper with us. *Children* is an international, open access journal established in 2013. The journal is dedicated to the streamlined, yet scientifically rigorous, dissemination of peer-reviewed science that is related to childhood health and disease, in both developed and developing countries. The publication focuses on sharing clinical, epidemiological, and translational research relevant to children's health. We are now indexed in SCIE (Web of Science) and PubMed. Please note that *Children* does not accept mini reviews since 2019.

Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **No Copyright Constraints** Retain copyright of your work and free use of your article
-  **Thorough Peer-Review**
-  **Discounts on Article Processing Charges (APC)** If you belong to an institute that participates with the MDPI Institutional Open Access Program
-  **Journal Rank** JCR - Q2 (*Pediatrics*)
-  **Coverage by Leading Indexing Services** Scopus, SCIE (Web of Science), PubMed, PMC, and other databases

Aims and Scope

Children is an open access journal that provides an expeditious editorial process, including rigorous peer review. The journal supports fair and ethical research in the field of pediatrics. We espouse reproducibility and therefore encourage scientists to publish their work in as much detail as possible, without placing restrictions on the maximum length of manuscripts or use of color illustrations.

Topics for *Children* include, but are not limited to:

Public Health and Epidemiology

Global Health

General Pediatrics
