Message from the Editor-in-Chief

As the Editor-in-Chief of Publications (ISSN 2304-6775), I warmly invite you to submit your research for consideration for publication in our journal. Publications is an international, peer reviewed, fully Open Access journal that provides an advanced forum for research studies related to all aspects of scholarly publishing. While primarily a vehicle for research and review articles, we will also publish, from time to time, case studies and opinion pieces. We aim to offer high-quality, responsible services and rapid decision-making so that submitting and publishing with us should be a rewarding experience. If you wish to discuss your ideas for submission in advance, or if you have topics for potential Special Issues you would like us to consider, or indeed have any queries about any other aspect of Publications, then please do not hesitate to contact me personally at: g.derrick@lancaster.ac.uk

Author Benefits

- **Open Access** Unlimited and free access for readers
- **No Copyright Constraints** Retain copyright of your work and free use of your article
- **Thorough Peer-Review**

- **No Space Constraints, No Extra Space or Color Charges** No restriction on the maximum length of the papers, number of figures or colors
- **Rapid Publication** First decision provided to authors approximately 31.8 days after submission; acceptance to publication is undertaken in 4.8 days (median values for papers published in this journal in the second half of 2022)
Aims and Scope

*Publications* (ISSN 2304-6775) is an international, peer-reviewed, fully open access journal that provides a home for research related to all aspects of scholarly publication and culture. Scholarly publishing is the gateway to the academic record, and it should be studied and critically analysed in all its dimensions with the same rigour expected of other research. Publications aims to provide an interdisciplinary forum for scholars, publishing professionals, librarians, funders, innovative service providers and others to communicate original research on a range of topics that address current issues and inform best practice.

The scope of *Publications* includes:

- Theory and practices of scholarly communication
- Public access to and engagement with scientific research
- Globalisation of research and the advent of open science
- The social, legal and ethical dimensions of publication
- Digitisation and other innovations in scholarly publishing technologies
- Metadata, standards, infrastructures and linking in the scholarly record
- Financial models and sustainability issues for scholarly publishing
- Copyright, licensing and other legal issues in publishing
- Issues related to peer review and academic governance practices
- Critical bibliometric and scientometric studies, including socio-technical perspectives
- etc
