Message from the Editors-in-Chief

Nutrients is an on-line open access journal that was first published in 2009. Nutrients adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of Nutrients has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Author Benefits

- **Open Access** Unlimited and free access for readers
- **No Copyright Constraints** Retain copyright of your work and make free use of your article
- **Thorough Peer-Review**
- **2022 Impact Factor: 5.9** (*Journal Citation Reports* - Clarivate, 2023)
- **Discounts on Article Processing Charges (APC)** If you belong to an institute that participates with the MDPI Institutional Open Access Program
- **No Space Constraints, No Extra Space or Color Charges** No restriction on the maximum length of the papers, number of figures or colors
- **Coverage by Leading Indexing Services** Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS and other databases
- **Rapid publication** A first decision is provided to authors approximately 14.7 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2023)
Aims and Scope

*Nutrients* will consider manuscripts for publication that provide novel insights into the impacts of nutrition on human health or novel methods for assessing nutritional status. This includes manuscripts describing the outcomes of animal studies that have relevance to human health.

The scope of *Nutrients* includes:

- Macronutrients
- Micronutrients
- Essential nutrients
- Bioactive nutrients
- Nutrient requirements
- Nutrient sources
- Human nutrition aspects
- Functional foods
- Nutraceuticals
- Health claims
- Public health
- Diet-related disorders
- Metabolic syndrome
- Malnutrition
- Nutritional supplements
- Sport nutrition
- Nutritional status and body composition
- Bariatric surgery
- Sarcopenia
- Nutritional physiology
- Nutrigenomics
