Message from the Editors-in-Chief

The *International Journal of Neonatal Screening* (IJNS) is owned by the International Society for Neonatal Screening (ISNS). *IJNS* is also the official journal of the German Society for Neonatal Screening (DGNS), the Japanese Society for Neonatal Screening (JSNS), the Association of Public Health Laboratories (APHL)–Newborn Screening & Genetics Program, the UK Newborn Screening Laboratory Network (UKNSLN) and French Society for Neonatal Screening (SFDN). The journal is a publishing platform for all topics concerning newborn screening (NBS) and covers clinical presentations, metabolite pattern detection, technical aspects, and “tips and tricks”. “Tips and tricks” will appear in the form of “Technical Notes” on the journal website, thus making *IJNS* the platform for NBS laboratories to share their valuable information as to how they have improved assays, workflow, and performance. Such improvements are sometimes achieved through tiny adaptations of existing methods, which normally remain in lab journals, but which might help improve the performance of NBS laboratories around the world.

Editors-in-Chief

Dr. Ralph Fingerhut
Dr. Peter C.J.I. Schielen

Associate Editors

Prof. Dr. David S. Millington
Prof. Dr. Can Ficicioglu
Dr. Dianne Webster

Aims

IJNS aims to improve knowledge concerning the natural course of target diseases for newborn screening, as well as to share information on the topical methods used in newborn screening laboratories.

IJNS also seeks to improve communication between newborn screening laboratories worldwide, and to distribute technical notes offering improvements to existing screening methods and assays.

Scope

- Research articles
- Reviews
- Technical notes
- Case reports focussed on cases found in NBS
- Letters: Comments on previous articles or relevant topics related to NBS

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Rapid Publication

A first decision is provided to authors approximately 25.3 days after submission; acceptance to publication is undertaken in 5.6 days (median values for papers published in this journal in the second half of 2024)
