catalysts

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Keith Hohn

Message from the Editor-in-Chief

Catalysts impact the world through the production of fuels to power our economies, by the synthesis of materials that improve our lives, and by the destruction of harmful pollutants. Cutting-edge research in catalysis pushes forward our understanding of how catalysts work, ultimately leading to better catalytic processes and greater impacts on society. *Catalysts* offers you the opportunity to publish your research in an open access format, providing scholars with quick access to your research. Please consider publishing in *Catalysts* when preparing your next paper.

Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **No Copyright Constraints** Retain copyright of your work and free use of your article
-  **Thorough Peer-Review**
-  **2021 Impact Factor: 4.501 (Journal Citation Reports - Clarivate, 2022)**
-  **Discounts on Article Processing Charges (APC)** If you belong to an institute that participates with the MDPI Institutional Open Access Program (IOAP)
-  **No Space Constraints, No Extra Space or Color Charges** No restriction on the maximum length of the papers, number of figures or colors
-  **Coverage by Leading Indexing Services** Science Citation Index Expanded (Web of Science), Scopus (2021 CiteScore: 5.5) and other databases
-  **Rapid Publication** First decision provided to authors approximately 12.7 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the second half of 2022)

Aims and Scope

Catalysts (ISSN 2073-4344) is an international open access journal of catalysts and catalyzed reactions. *Catalysts* publishes reviews, regular research papers (articles) and short communications. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible, therefore, there is no restriction on the maximum length of the papers. The full experimental details must be provided so that the results can be reproduced.
