Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Aims

Water (ISSN 2073-4441) is an international and interdisciplinary open-access journal covering all aspects of water, including water science, technology, management and governance. It publishes original research papers, critical reviews and short communications.

Scope

The scope of *Water* encompasses the following research areas:

- Climate Change
- Anthropogenic Impacts
- Land Cover Changes
- Water Management and Governance
- Hydrology & Hydrogeology
- Hydraulics & Hydrodynamics
- Water Quality
- Sediment and Contaminant Transfers
- Flood and Drought Events
- Water in the Critical Zone
- Seawater and Coastal Zones
- Wastewater Treatment and Reuse
- Urban Water Management
- Agriculture and Water Cycles
- Water Footprint Assessment
- Water in Relation to Food, Energy & Human
- Water and One Health
- Water, Biodiversity and Ecosystems
- Water and Socio-Ecosystems
- New Tracers in the Water Cycles
- Remote Sensing and Integrative Modelling
- New Sensors in the Water Cycles

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

2022 Impact Factor: 3.4

(*Journal Citation Reports* - Clarivate, 2023)

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures, or use of colors

Coverage by Leading Indexing Services

Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases

Rapid Publication

A first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2023)
