## **Message from the Editorial Board**

Contributions to clinicopathological correlations, studies based on current molecular technologies, as well as controversial issues and case reports are welcome. The aims of the journal are to share interesting and recent clinicopathological information with the dermatopathologists community all over the world and to create a stronger link between dermatopathology, clinical dermatology, and investigative dermatology.

*Dermatopathology* also provides a resource for continuing medical education in cutaneous pathology.

## **Author Benefits**

-  **Open Access** Unlimited and free access for readers
-  **High visibility** Indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases
