# Message from the Editor-in-Chief

*Cardiogenetics* is an essential resource for general physicians, cardiologists, and geneticists. Exome sequencing, noncoding DNA, bioinformatics, micro-RNA, long-noncoding DNA and epigenetics have entered our daily vocabulary, highlighting the importance of forming a “cardiogenetics team” working side by side, bringing the lab to the patients’ bed, and vice versa. A strong Editorial Board of active clinicians and scientists will support this new experience. *Cardiogenetics* publishes high-quality original research papers, review articles, short reports, news and views, with the aim of connecting the scientific (bench) to the clinical (bedside) world. Since 2011, the journal has been increasingly successful.

Please help us to overcome this challenge.

---

## Editor-in-Chief

Dr. Giuseppe Limongelli

---

## Aims

*Cardiogenetics* (ISSN 2035-8148) is an international, scientific, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of cardiogenetics (clinical, molecular, cellular, pharmacological). The journal publishes high-quality original research papers, review articles, short reports, news and views, with the aim of connecting the scientific (bench) to the clinical (bedside) world.

---

## Scope

- Clinical and molecular aspects of inherited heart diseases (IHDs)
- Clinical and molecular aspects of rare diseases
- Pharmacogenetics and Pharmacogenomics
- Stem cell studies
- Diagnostic methods including sequencing studies
- Bioinformatics and statistical methods in genetics
- Personalized medicine and therapies (gene therapy and gene editing)
- Molecular biology and pathophysiology of genetic and genomic diseases
- Polygenic/multifactorial disorders
- Cellular electrophysiological studies related to inherited arrhythmogenic conditions;
- Imaging in cardiogenetics;
- Mutation reports.

---

## Author Benefits

### Open Access

Unlimited and free access for readers

### No Copyright Constraints

Retain copyright of your work and free use of your article

### Thorough Peer-Review

### Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

### No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

### Coverage by Leading Indexing Services

ESCI (Web of Science), Scopus, Embase, and other databases

### Rapid Publication

A first decision is provided to authors approximately 23.1 days after submission; acceptance to publication is undertaken in 6.2 days (median values for papers published in this journal in the second half of 2025)
