Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Author Benefits

- **Open Access** Unlimited and free access for readers
- **No Copyright Constraints** Retain copyright of your work and free use of your article
- **2021 Impact Factor: 4.614 (Journal Citation Reports - Clarivate, 2022)**
- **Discounts on Article Processing Charges (APC)** If you belong to an institute that participates with the MDPI Institutional Open Access Program
- **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors
- **Coverage by Leading Indexing Services** Scopus, SCIE and SSCI (Web of Science), PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases
- **Rapid Publication** First decision provided to authors approximately 22.5 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2022)
Aims and Scope

*IJERPH* (ISSN 1660-4601) is a peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications in the interdisciplinary area of environmental sciences and public health. As a comprehensive multi-disciplinary journal, *IJERPH* is comprised of Thirty-five major sections including the following:

- Health economics
- Global health
- Environmental health
- Environmental science and engineering
- Occupational safety and health
- Health behavior, chronic disease and health
- Climate change
- Infectious disease epidemiology
- Mental health
- Digital health
- Children’s health
- Women’s health
- Health care sciences & services
- Health communication and informatics
- Toxicology and public health
- Public health statistics and risk assessment
- Environmental microbiology
- Oral health
- Exercise and health
- Traumas
- Nursing
- Adolescents
- Skin health
- Disabilities
- Reproductive health
- Sport and health
- Aging
- Air
- Water science and technology
- Anthropogenic circularity
- Chemoenvironment
- Environmental earth science and medical geology
- Biosafety
- Disease prevention
- Health-related quality of life and well-being
