Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in Behavioral Sciences (ISSN 2076-328X). Behavioral Sciences is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: https://www.mdpi.com/journal/behavsci. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Author Benefits

- **Open Access** Unlimited and free access for readers
- **No Copyright Constraints** Retain copyright of your work and free use of your article
- **Thorough Peer-Review**
- **No Space Constraints, No Extra Space or Color Charges** No restriction on the maximum length of the papers, number of figures or colors
- **Journal Rank** JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)
- **Coverage by Leading Indexing Services** Scopus, SSCI (Web of Science), PubMed, PMC, and other databases
- **Rapid Publication** A first decision is provided to authors approximately 21.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2023)
Aims and Scope

Behavioral Sciences (ISSN 2076-328X) is a peer-reviewed journal that publishes original articles, critical and systematic reviews, research notes and short communications in the area of psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers. The full experimental details of each research paper need to be provided so that the results can be reproduced. Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

Scope:

Psychiatry
Psychology
Psychobiology
Experimental and clinical neurosciences
Behavior genetics
Social neuroscience
Neurocognitive sciences
Sociology and social networks
