Expression of Concern

Expression of Concern: Ossicini, A. On the Nature of Some Euler's Double Equations Equivalent to Fermat's Last Theorem. *Mathematics* 2022, *10*, 4471

Mathematics Editorial Office

MDPI, St. Alban-Anlage 66, 4052 Basel, Switzerland; mathematics@mdpi.com

With this notice, the *Mathematics* Editorial Office states its awareness of concerns regarding the findings of the published manuscript [1]. Concerns have been raised by readers about the validity and accuracy of the results. In order to maintain the highest scientific standards, the Editorial Office has decided to issue this expression of concern while an investigation is conducted.

The author of this publication has been contacted for further clarification. The investigation is being coordinated by the Editorial Board and Editor-in-Chief. An update will be provided following the conclusion of the investigation.
