There were errors in the original publication [1], regarding the concentrations used in the MTT assay (Section 4.3.2) and Figure 4.

The authors wish to change the stated concentrations: 156.25, 312.5, 625, 1250, 5000 and 10,000 µg/mL. The correct concentrations are: 31.25, 62.5, 125, 250, 500 and 1000 µg/mL. A correction has been made to Section 4.3.2 (MTT Assay), paragraph number 1.

Regarding Figure 4, the authors wish to change the concentration values on the x-axes of both subfigures (A) and (B). The concentration values on the x-axes 10,000, 5000, 2500, 1250, 625 and 312.5 are corrected to 1000, 500, 250, 125, 62.5 and 31.25, and the corrected Figure 4 appears below.

(A) Determination of IC₅₀ of *C. silvatica* leaves against colon cancer (Caco2)

(B) Determination of IC₅₀ of *C. silvatica* stems against colon cancer (Caco2)

Figure 4. Determination of the half-maximal inhibitory concentration (IC₅₀) of (A) *C. silvatica* leaves extract and (B) *C. silvatica* stems extract against colon cancer (Caco2).
