Error in Figure

In the original publication [1], there was a mistake in Figure 4 (C, E, F and G). The inclusion of these images was an unintended error. During the time of article preparation, there existed another accurate figure, but due to a mistake, the old, published figure was inadvertently used. Unfortunately, this oversight went unnoticed by the senior author. The corrected Figure 4 appears below. The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.

Figure 4. CLSM analysis of biofilms development by *S. aureus* without treatment (A) & biofilms development by *S. aureus* incubated with CL-nanoemulsion at 0.5 MIC, 0.25 MIC, and 0.06 MIC (B–D), respectively, for 24 h. Also, CLSM analysis of biofilms formed by *S. aureus* incubated with CL-emulsion at 0.5 MIC, 0.25 MIC, and 0.06 MIC (E–G), respectively, for 24 h.
