In the original publication [1], there was a mistake in the caption for Figure 6 as published. The authors had unintentionally re-used chromatograms from a previous publication but neglected to properly cite the previous work. However, the authors referenced the previous publication as Ref. [20] in the main text of the original publication [1]. The correct caption appears below. The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.

Figure 6. HPLC fingerprint of the hydro-ethanolic extract of *P. oleracea* at 220 nm (A) and 320 nm (B) (reprinted with permission from Ref. [20]).
