Error in Figure 1

In the original publication [1], there was a mistake in Figure 1 as published. The structural diagrams shown represented stereoisomeric forms differing from natural (Z)- α -santalol and (Z)- β -santalol. The correct absolute configurations of these compounds, according to their entries in the CAS registry (115-17-19 and 42495-69-2, respectively) are shown in the corrected Figure 1 below.
