There was an error in the original article [1]. In Section 5, the volume of water to mix 100 g PEG 8000 was wrongly written as 800 mL. A correction has been made to Section 5: Mix 100 g PEG 8000 with 400 mL water and mix on a magnetic stirrer until dissolved. The authors apologize for any inconvenience caused and state that the scientific conclusions are unaffected. The original article has been updated.
