\* Correspondence: alberto.solano@ucr.ac.cr

There was a small error in the fifth sentence of the Abstract in the original publication [1]. The authors mistakenly wrote “A total of 147 species of marine parasites have been reported in Costa Rica as parasites of 61 different species of hosts”. The corrected sentence should be “A total of 146 species of marine parasites have been reported in Costa Rica as parasites of 61 different species of hosts”. The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
