Text Correction

In the original publication [1], there was an error in the third sentence of the third paragraph in Section 3. The sentence “We also found an amino acid deletion at position 133 in the HA protein (H3 numbering) in all our isolates” should be changed to “We did not find an amino acid deletion at position 133 in the HA protein (H3 numbering) in all our isolates”.

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
