It was brought to our attention that, due to a recent change of the Total Carbon Column Observing Network (TCCON) Data Use Policy, citation of the individual TCCON dataset references used in the publication published in *Remote Sensing* [1] is now mandatory. With this addendum, an Appendix is added to the original manuscript containing the missing dataset references and cooperating institutions for TCCON and the Network for the Detection of Atmospheric Composition Change (NDACC), respectively. Furthermore, we would like to add the Acknowledgements as shown below.

We apologize for any inconvenience caused. The change does not affect the scientific results. The manuscript will be updated and the original will remain online on the article webpage, with a reference to this addendum.

## Appendix A. NDACC Data Providers
