We are publishing volume 11 of *Medicines* in 2024. When *Medicines* (ISSN 2305-6320) [1] was launched, its aims and scope were focused on evidence-based complementary medicine, alternative medicine, and other therapeutics.

We decided that *Medicines* should mainly cover advanced drug studies. As a consequence of this change, a new journal called *Therapeutics* (ISSN 2813-9909) [2] has started as a spin-off journal of *Medicines*. It will begin with volume 1 in 2024.

*Medicines* will aim to report therapeutic agents, while *Therapeutics* will focus on all modern as well as established traditional therapeutic techniques.
