The journal retracts the article titled “Systematic Review of Fatal Sodium Nitrite Ingestion Cases: Toxicological and Forensic Implications” [1], cited above.

Following publication, concerns were brought to the attention of the Editorial Office regarding an overlap between this publication [1] and two previous publications [2,3] produced by different groups of authors.

Adhering to our complaints procedure, the Editorial Office and Editorial Board conducted an investigation that confirmed a significant overlap between [1] and two previous publications [2,3], without appropriate acknowledgment or citation. As a result, the Editorial Board has decided to retract this paper as per MDPI’s retraction policy (https://www.mdpi.com/ethics#_bookmark30).

This retraction was approved by the Editor-in-Chief of the *Toxics* journal.

The authors did not agree to this retraction.
