## Reference List Correction

The authors wish to revise the second citation of reference [26] to [27] in the original article main text [1] and add a new reference [27] to the list of references.

On page 7, the original sentences are as follows: The response to the pandemic required that we adapt quickly based on the local context and required the funding organizations to allow flexibility in fund utilization. There is also a need to increase the share of TB domestic funding to allow implementers more flexibility in adapting quickly and without bureaucratic hurdles [26].

The correction is as follows: The response to the pandemic required that we adapt quickly based on the local context and required the funding organizations to allow flexibility in fund utilization. There is also a need to increase the share of TB domestic funding to allow implementers more flexibility in adapting quickly and without bureaucratic hurdles [27].
