

Correction

# Correction: Favaretto et al. A Spatial Structure Variable Approach to Characterize Storm Events for Coastal Flood Hazard Assessment. *Water* 2021, 13, 2556

Chiara Favaretto , Luca Martinelli  and Piero Ruol 

ICEA Department, Padua University, v. Ognissanti 39, 35129 Padova, Italy

\* Correspondence: chiara.favaretto@dicea.unipd.it

There were two typos in the original publication [1], one in the Abstract and one in the Back Matter.

In the fourth sentence of the Abstract, the symbol  $\zeta$  was wrongly replaced with the text “Relaix, F., Zammit, P.S. Satellite cells are essential for skeletal muscle”.

The correct sentence is:

“The pair is selected maximizing a spatial structure variable, i.e., a linear combination of  $H_s$  and  $\zeta$ , specific to each point of the area at risk.”

In the Back Matter, a paragraph appeared under the Institutional Review Board Statement section that however belongs to the Funding section.

The correct paragraphs are:

**Funding:** The authors acknowledge support within the Venice 2021 research grant funded by Provveditorato for the Public Works of Veneto, Trentino Alto Adige, and Friuli Venezia Giulia, provided through the concessionary of State Consorzio Venezia Nuova and coordinated by CORILA (Consorzio per il coordinamento delle ricerche inerenti al sistema lagunare di Venezia).

**Institutional Review Board Statement:** Not applicable.

The authors state that the scientific conclusions are unaffected by these corrections, that were approved by the Academic Editor. The original publication has also been updated.
