

Accelerating Health Innovation

Liz Derks - Program Manager

90%

Of startups fail.

Four main reasons why startups fail:

**“Innovation. does. not.
happen. in. isolation.”**

- Likely someone within the Impact Hub Network

Impact Hub

We are the worlds largest network focused on building entrepreneurial communities for impact at scale

**Vibrant
Community**

**Meaningful
content**

**Inspiring
spaces**

Impact Hub Switzerland

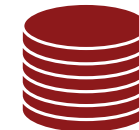

1'700 members

7'000 square meters

115 employees (62 FTEs)

10M+ CHF in revenues

**2000 new jobs created
per year**

**500+ startups and
initiatives created
per year**

Impact Hub Basel

Established in 2017

Co-working space expected to open in fall

5 focus SDGs

Monthly events

Programs

When it comes to health...

**Impact Hub Basel has an opportunity
to make a BIG difference!**

The Basel health ecosystem

Private Sector

Public Sector

**Research and
academic institutions**

Foundations

**International
organisations**

**International
community**

**Health and
Impact Investors**

Opportunity for health startups and innovation

- Increased complexity in world-wide healthcare challenges
- How do we get our innovations to reach underserved populations?
- How can we use the global Impact Hub network to share our local healthcare knowledge and experience?

Digital Collaboration in Health and Life Sciences

- Hosted in partnership with UN High-Level Panel on Digital Cooperation and Fondation Botnar
- What is working and where are the gaps in collaboration between different stakeholder groups in health and life sciences sector?
- What methods and mechanisms could enhance cooperation between these actors and bring greater benefits to public health?
- Outcome report was shared with the UN High-Level Panel on Digital Cooperation as input and can be downloaded on <http://basel.impacthub.net>

Innovators for Children

- **Entrepreneurship program in partnership with IH Bucharest and supporting Romanian startups with solutions to improve children's health and wellbeing**
- **Startups receive access to training, mentoring and coaching, space and community, and funding.**
- **Connect the two ecosystems and enable/facilitate a knowledge transfer between the two.**
- **Startups will be visiting Basel at the end of October**

Health program

- In conversation with IHS in selected countries in Africa to develop a health startup accelerator
- Focus on access to health and health determinants (nutrition and education)
- Targeting solutions leveraging technology as an underlying pillar for scalability
- Ideas to involve the Basel startup / health ecosystem?

Thank you
