MDPI

Section Information

The section of Medicinal Chemistry welcomes manuscripts involving aspects within the definition of medicinal chemistry related to the invention, discovery, design, identification and preparation of biologically active compounds, the study of their metabolism, the interpretation of their mode of action at the molecular level and the construction of structure-activity relationships. Novel strategies and methodologies with relevant application to chemical biology and medicinal chemistry are also welcome.

Our aim is to publish updated reviews as well as research articles with comprehensive theoretical and experimental details covering all aspects of small molecules as drug candidates e.g. drug discovery and design, combinatorial chemistry, structure-property correlations, molecular modelling and bioinformatics. Short communications are also accepted; therefore, there is no restriction on the length of a paper.

Section Editor-in-Chief
Prof. Dr. Mary J. Meegan

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

2025 Impact Factor: 5.7

(*Journal Citation Reports* - Clarivate, 2026)

Journal Rank

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Coverage by Leading Indexing Services

Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases

Rapid Publication

A first decision is provided to authors approximately 14.3 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2026)
