About MDPI

MDPI is a publisher of fully peer-reviewed, Open Access journals with a focus on robust and rapid editorial processes.

Our aim is to ensure that high-quality research is verified and made available to the research community as quickly as possible.

MDPI stands at the forefront of the Open Access movement, having launched its first online journal *Molecules* in 1996.

Today, MDPI is a leader in Open Access and publishing more than 400 journals across all research disciplines. Every article is published under a Creative Commons Attribution License.
481.1 K submissions received in 2021

400+ open access journals

17 days from submission to first decision in 2021 (median across all journals)

38 days from submission to publication in 2021 (median across all journals)

205 journals indexed in Web of Science

93 Journals covered in SCIE (Web of Science)

115,000 academic editors

240.5 K articles published in 2021
Our Mission and Values

Open Access
We offer access to science and the latest research to readers for free. All of our content is published in open access and distributed under a Creative Commons License, which means published articles can be freely shared and the content re-used, upon proper attribution.

Simplicity
All of our tools and services can be found in one place and prioritize user-friendliness. Simple processes keep our editorial process highly efficient.

Timeliness and Efficiency
We aim to publish fast to ensure the latest research is rapidly disseminated, using thorough, precise editorial work. By assisting editors and reviewers all along the peer-review process, a first decision is provided to authors in three weeks; once accepted, papers are published in under a week (median times for papers published in 2021).

Flexibility
In a changing and evolving publishing environment, we are constantly adapting and developing new tools and services. By listening to feedback from authors, editors and readers, we can make changes to better meet the needs of our research community and keep MDPI relevant.

High Quality Service
We aim to provide a service that supports scholars and their work. By offering a range of different options, including journal publication at mdpi.com, early publication at preprints.org and conferences on sciforum.net, we support scientific communities worldwide to make a positive impact on research.

Rooted in Sustainability
In addition to being at the root of MDPI and a key theme in our journals, we support sustainability by ensuring the long-term preservation of published papers, and the future of science through partnerships, sponsorships and awards.
Publication by Subject Area

- **15.5%** Biology & Life Sciences
- **13.9%** Medicine & Pharmacology
- **2.9%** Business & Economics
- **6.9%** Physical Sciences
- **16.1%** Chemistry & Materials Science
- **8.7%** Public Health & Healthcare
- **5.2%** Computer Science & Mathematics
- **3.0%** Social Sciences, Arts & Humanities
- **13.4%** Engineering
- **14.4%** Environmental & Earth Sciences
MDPI Services for Scholars

**Sciforum**

Sciforum is an event management platform that supports open science by offering the opportunity to participate in, as well as to organize, academic conferences.

www.sciforum.net

**Preprints**

Preprints is a multidisciplinary preprint platform that makes scientific manuscripts from all fields of research immediately citable and permanently available for everyone.

www.preprints.org

**MDPI Books**

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge across all disciplines.

www.mdpi.com/books

**Scilit**

A centralized platform for all published research literature.

www.scilit.net

**SciProfiles**

SciProfiles is a social network platform powered by MDPI for researchers across the globe.

www.sciprofiles.com
MDPI offers services to improve your English expression at any point prior to publication.
