Default search will look through all from/to/cc fields in the past 6 months using exact match to return 10 results.

By default, new results will be listed on the top of the stack.

Emails are not included unless they contain at least one non-mdpi address.

We strongly advise you to search by email rather than by name. If you search by name, non-English letters in names must be entered exactly into the search box (use copy and paste), otherwise result may not show.

Maximum 50 queries allowed each time you click search button.

Adjust if you wish to use a different set of conditions.
