

Where can I find publications on SDG 4?

Education is complex and inherently multidisciplinary. To enhance educational outcomes, it's crucial for a child to have access to proper nutrition, safety, good health, and a suitable learning environment. These factors have been extensively documented in various open-access scientific articles. In mdpi.com/sdg/goal4, over 20,000 papers related to education can be accessed. For further insights, check out the journals listed below. These journals have published several articles on SDG 4 between 2021-2023:

IJERPH 5593	JCM 269
