DERMATOPATHOLOGY

Message from the Editor-in-Chief

I have the great pleasure of announcing that *Dermatopathology* has received an updated Impact Factor of 1.8 for June 2026, maintaining its position as the highest rated Impact Factor journal among all the existing dermatopathology journals (with an increasing impact on clinico-pathological correlation articles for clinical dermatologists).

This immense success is a result of the excellent work our Editorial Team, who have engaged in the meticulous selection and peer reviewing of high- quality articles covering different aspects of cutaneous pathology. This journal publishes case reports, communications, full articles, research articles and reviews on clinical, molecular, and investigative dermatopathology in several Special Issues per year. The journal's publications are indexed in PubMed. I encourage all the specialists in cutaneous pathology to submit any original research to *Dermatopathology*.

Editor-in-Chief
Prof. Dr. Gürkan Kaya

Aims

Dermatopathology (ISSN 2296-3529) is a peer-reviewed open access journal providing an advanced forum for studies related to diagnostic and experimental animal and human studies in dermatopathology.

The aims of *Dermatopathology* are to share interesting and recent clinicopathological information with dermatopathologist communities from around the world, and to create a stronger link between dermatopathology, clinical dermatology, and investigative dermatology. Contributions to clinicopathological correlations, studies based on current molecular technologies, and controversial issues are all welcome.

Scope

- Histopathology
