Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Clinical and Translational Neuroscience* (ISSN 2514-183X). *Clinical and Translational Neuroscience* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on clinical and translational neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

We would be pleased to welcome you as one of our authors.

Aims

Clinical and Translational Neuroscience (CTN) is an international, peer-reviewed, open access journal. The journal focuses on translating or developing basic neuroscience research into novel clinical neuroscience applications and therapies. We encourage basic and clinical scientists to publish their results in such detail that they can readily be reproduced. There is no restriction on the maximum length of the papers.

The “Brain Health” Special Issue is dedicated to not only advancing basic and translational knowledge, but also to fostering international collaborations and initiatives to promote brain health and science-based prevention of brain disorders throughout the life course for all people worldwide.

Scope

- Clinical research
