Message from the Editor-in-Chief

Air is an international, open-access journal exploring all aspects of air, such as air science, technology, management, and governance. Our goal is to provide a platform for interdisciplinary research and dialogue. By bringing together experts from various fields, we can deepen our understanding of the challenges we face and work towards innovative solutions. Therefore, we would like to invite you to contribute your work for peer review. Our journal provides a highly accessible platform for sharing research and insights with a global audience. Together, we can achieve a sustainable future.

Editor-in-Chief

Dr. Ling Tim Wong

Aims

Air (ISSN 2813-4168) is an international, peer-reviewed, open access journal that provides an advanced forum for studies related to all aspects of air, including air science, air technology, air pollution, and air management and governance. The journal publishes reviews, original research articles, and short communications, and may also consider other article types. Authors are encouraged to present comprehensive experimental and theoretical results in detail. There is no restriction on the maximum length of papers published in *Air*; however, submissions must be clear and concise. Authors must provide full experimental details to ensure the reproducibility of their results. If these details cannot be included in the main text, supplementary materials, such as electronic files or software containing the complete details of the relevant calculations and experimental procedures, may be included.

Scope

The scope of *Air* encompasses the following research areas:

- Air quality for health and comfort;
- Air pollution and source characterization;
- Air purification and control techniques;
- Air management, policy control, monitoring, and modeling;
- Air–human interaction and sustainable development.

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures, or use of colors

Rapid Publication

A first decision is provided to authors approximately 20.9 days after submission; acceptance to publication is undertaken in 12.2 days (median values for papers published in this journal in the first half of 2025)
