# Message from the Editor-in-Chief

Welcome to *Trends in Public Health*, a journal launched in response to the urgent and multifaceted health challenges shaping our world today. Our aim is to advance public health research, practice, policy, and education. We are also committed to utilizing science to advance eco-health equity.

Our scope embraces a broad range of topics, spanning foundational fields such as infectious disease control, environmental health, and health statistics, as well as pressing contemporary issues like the health consequences of climate change, the influence of social determinants, and the moral dimensions of public health governance. We also highlight the growing importance of artificial intelligence in public health.

Join us in this important pursuit—as an author, a reviewer, or an editorial board member. Let's work together to set in motion the trends that will build a healthier, more just, and sustainable world!

---

## Editor-in-Chief

Prof. Dr. Xiaochuan Pan

---

## Associate Editor

Dr. Guoxing Li

---
