Message from the Editor-in-Chief

The *Journal of Mind and Medical Sciences* is an international, peer-reviewed, open access journal published quarterly online. Originally established as a multidisciplinary platform at the interface of mental and medical sciences, the journal has evolved into a distinct scientific framework dedicated to the bidirectional emergence in health and disease (<https://doi.org/10.3390/jmms12020044>). This perspective reconfigures pathology as a dynamic, multi-level interaction between biological substrates and neural networks, on the one hand, and clinical expression and mental experience, on the other. Accordingly, we encourage submissions that move beyond linear and reductionist paradigms and propose innovative theories, integrative models, and translational perspectives capable of redefining how complex diseases are interpreted, investigated, and managed.

Editor-in-Chief

Dr. Ion G. Motofei

Aims

Journal of Mind and Medical Sciences (ISSN 2392-7674) is an international, peer reviewed, and open access journal which provides an advanced academic forum for papers related to the mind or body in health and disease. It publishes reviews, original research, case reports, and editorials, but other article types will also be considered. In addition, *JMMS* publishes Special Issues on particular topics of interest.

The journal encourages interdisciplinary perspectives that integrate basic, clinical, and translational research on the human mind or medical topics. The full experimental details must be provided so that the results can be reproduced, and computed data or files regarding the full details of the experimental procedure can be deposited as supplementary material. The journal has no restriction on the maximum length of the papers.

Scope

- Neuropsychiatric conditions and mental disorders
- Neurodegenerative diseases
- Cardiovascular diseases
- Pulmonary diseases
- Gastrointestinal diseases
- Urological and nephrological diseases
- Endocrine and metabolic diseases
- Nutritional disorders
- Infectious diseases
- Chronic diseases and multimorbidity
- Hereditary and genetic diseases
- Cancer biology and psycho-oncology
- Immunology and psychoneuroimmunology
- Rare syndromes
- Pathogenesis, pathology, and therapy of human diseases
- Diseases and society

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Rapid Publication

A first decision is provided to authors approximately 33 days after submission; acceptance to publication is undertaken in 6.5 days (median values for papers published in this journal in the second half of 2025).
