# Message from the Editor-in-Chief

The editorial board of *Biosphere* invites papers resulting from disciplinary and interdisciplinary research, modeling and literature reviews on the current state of the field and its future projections. The main purpose of *Biosphere* is to enhance our scientific understanding and use the resulting knowledge and information for the practical management and stewardship of nature and the services it provides to humans and other species on Earth. Such contributions can be in the form of individual papers, a special collection of papers, and dedicating a Special Issue of the journal to topic(s) of interest to authors. Interested contributors can also propose to serve as a guest editor for organizing a special topical issue of the journal.

## Aims

*Biosphere* (ISSN 3042-6111) is a peer-reviewed, open access journal which provides an international platform for discussing sustainable practices for global ecosystem management and stewardship. With no restriction on the maximum length of the papers, *Biosphere* publishes reviews, regular research papers, Special Issues, topical collections, communications, editorials, and short notes. As a transdisciplinary journal, *Biosphere* encourages authors to provide comprehensive experimental and methodological details to ensure reproducibility and facilitate application by scientists and practitioners.

---

## Scope

The scope of this journal includes, but is not limited to, the following areas:

- Ecosystem science and dynamics
- Biodiversity conservation
- Global change and environmental adaptation
- Biogeochemical cycles
- Innovative methods
- Human activities and ecological impacts
- Sustainable development
- Policy and education

---

## Author Benefits

### Open Access

Unlimited and free access for readers

### No Copyright Constraints

Retain copyright of your work and free use of your article

### Thorough Peer-Review

### Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

### No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

### Rapid Publication

First decisions in 19 days; acceptance to publication in 4 days (median values for MDPI journals in the first half of 2025)
