Message from the Editor-in-Chief

AI Materials is a new open-access journal, dedicated to exploring the dual trajectory of AI and materials science—how AI revolutionizes materials research, and, equally importantly, how advanced materials enable the next generation of AI technologies. *AI Materials* covers a wide range of topics, including, but not limited to, material screening, material informatics, high-performance computing, cutting-edge materials for enhancing AI applications, etc. We welcome researchers from all career stages and geographic regions to join us in shaping this exciting new chapter in materials research.

Honorary Editor-in-Chief

Prof. Dr. Xin-Gao Gong

Editor-in-Chief

Prof. Dr. Zhimei Sun

Aims

AI Materials (ISSN 3042-6715) is an international, peer-reviewed, open access journal dedicated to advancing the interdisciplinary frontier of applications between artificial intelligence (AI) and materials science. It publishes reviews, regular research papers (articles), and short communications, but other article types will also be considered. We aim to establish a platform for disseminating high-impact outcomes on the integration of AI methodologies with materials science, with key focus areas including AI-driven material screening, predictive property optimization, autonomous experimental systems, and large language models.

Scope

- AI-enhanced theory & simulation;
- generative design & discovery;
- autonomous experimentation;
- AI for characterization;
- large language models & agents;
- data infrastructure;
- open science & tools.

We welcome research on all classes of materials, including inorganic, organic, polymers, biomaterials, and hybrids. We encourage the publication of high-quality negative datasets valuable for model training.

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Rapid Publication

First decisions in 19 days; acceptance to publication in 8 days (median values for MDPI journals in the second half of 2025)

MDPI is a member of
