Message from the Editor-in-Chief

It is with great pride and enthusiasm that we announce the relaunch of *Cardiovascular Medicine*, a journal with a longstanding tradition in the Swiss and international cardiology community. From its inception, the journal served as a valuable platform for disseminating high-quality articles on cardiovascular care and up-to-date subjects related to cardiovascular medicine. We are excited to breathe new life into *Cardiovascular Medicine*, which remains dedicated to advancing knowledge in the prevention, diagnosis, and treatment of cardiovascular diseases, covering the full spectrum of cardiovascular medicine, including cardiology, cardiac and aortic surgery, angiology, hypertension, and related disciplines. Our goal is to position *Cardiovascular Medicine* as a trusted and important international journal for the entire “Heart Team”.

Editor-in-Chief

Prof. Dr. med. Peter Matt

Aims

Cardiovascular Medicine (ISSN 1664-204X) is an international, open access, peer-reviewed journal that is dedicated to advancing knowledge in the field of cardiovascular medicine. The journal's primary focus is on the prevention, diagnosis, and treatment of cardiovascular diseases, highlighting the collaborative approach of the interdisciplinary “Heart Team”. It publishes original research articles, reviews, clinical guidelines, technical “how-to” articles, case reports, communications, and expert commentaries. All submissions are peer-reviewed by experts to ensure scientific quality and clinical relevance.

With its strong Swiss foundation and international reach, *Cardiovascular Medicine* aims to serve as an important platform for interdisciplinary exchange in cardiovascular care.

Scope

The journal covers the full spectrum of cardiovascular medicine, including the following:

- Cardiology;
- Cardiovascular and aortic surgery;
- Angiology;
- Hypertension;
- Preventive cardiology;
- Cardiovascular anatomy, physiology, and pathophysiology;
- Congenital heart disease and pediatric cardiology;
- Cardiovascular regenerative and reparative medicine;
- Cardiac imaging and diagnostics;
- Cardiovascular Critical Care and Acute Care;
- Cardiovascular Nursing;
- Cardio-Oncology;
- Related disciplines.

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures, or use of colors

Coverage by Leading Indexing Services

Scopus, Embase, and other databases

Rapid Publication

First decisions in 19 days; acceptance to publication in 4 days (median values for MDPI journals in the first half of 2025)
