Message from the Editor-in-Chief

Founded in 1917, *SANPP* has over a century of experience in facilitating clinical and scientific exchange in Switzerland and beyond. Notable for establishing an international forum that connects innovative research, critical reflection, and interdisciplinary dialogue across neurology, psychiatry, and psychotherapy, it has gained recognition in both Switzerland and internationally. While the journal is firmly rooted in Switzerland, it quickly gained international recognition and has since published the work of several renowned scholars, including Nobel Prize winners Dr. Walter Rudolf Hess and Dr. Rita Levi-Montalcini.

Prof. Dr. Paul G. Unschuld, University of Geneva, Editor-in-Chief of *SANPP*, said: “As a Swiss-born publisher, MDPI is a natural fit for *SANPP*. Our shared focus on global accessibility, and our deep respect for academic medicine and discourse, bode well for our long-term collaboration. Together, we aim to promote discussions and integrative clinical care in neurology, psychiatry, and psychotherapy by raising the profile of this century-old journal and making its content more accessible.”

Editor-in-Chief

Prof. Dr. Paul Gerson Unschuld

Aims

Swiss Archives of Neurology, Psychiatry and Psychotherapy (*SANPP*, ISSN 2297-7007) is a peer-reviewed scientific journal dedicated to advancing knowledge at the interface of neurology, psychiatry, psychotherapy, and the neurosciences. Building on its longstanding tradition, the journal provides a platform for clinically relevant and scientifically rigorous contributions that address disorders of the brain and mind across the lifespan.

SANPP aims to promote interdisciplinary exchange among clinicians, researchers, and scholars working in neurology, psychiatry, psychotherapy, neuropsychology, cognitive science, and related fields. The journal places particular emphasis on integrative and translational approaches to neuropsychiatric conditions, reflecting the increasingly overlapping boundaries between disciplines. Contributions that enhance understanding of diagnosis, pathophysiology, and treatment in real-world clinical contexts are especially encouraged.

The journal publishes original research articles, systematic and narrative reviews, and clinically oriented contributions. In addition, *SANPP* welcomes submissions addressing clinical controversies, case-based discussions, and developments in health services research and global mental health. Emerging areas of interest include, but are not limited to, psychotherapy research, digital and precision medicine, psychedelic-assisted therapies, and interdisciplinary models of care.

Scope

The journal's research fields of interest include, but are not limited to, the broad spectrum of mental health, neurological, and psychological research, as well as approaches to prevention, psychotherapy, and treatment, including the following:

- Psychological Science and Practice
 - Clinical Psychology;
 - Social Psychology;
 - Behavioural Psychology;
 - Cognitive Psychology;
 - Cyberpsychology;
 - Artificial Intelligence;
 - Psychotherapy.
- Psychiatric Disorders and Mental Health
 - Global Mental Health;
 - Mood Disorders;
 - Substance Use and Addictive Disorders;
 - Anxiety and Stress-Related Disorders;
 - Psychotic Disorders;
 - Neurodevelopmental Disorders;
 - Child and Adolescent Psychiatry;
 - Geriatric Psychiatry;
 - Molecular and Translational Psychiatry;
 - Health Services Research;
 - Psychiatric Treatment;
 - Psychedelic Medicine.
- Clinical Neurology and Neuropsychiatry
 - Clinical Neurosciences;
 - Behavioural Neurology;
 - Neurodegenerative Disease;
 - Cerebrovascular Disease;
 - Neuropsychiatry of Stroke;
 - Neuropsychiatry of Seizures;
 - Neuropsychological Rehabilitation.
- And related disciplines.

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures, or use of colors

Coverage by Leading Indexing Services

Scopus, and other databases

Rapid Publication

A first decision is provided to authors approximately 26.4 days after submission; acceptance to publication is undertaken in 5.8 days (median values for papers published in this journal in the first half of 2026)
